

HMK® R156 Marble & Bathroom Cleaner

A superior spray cleaner for all acid sensitive natural and artificial stone surfaces.

Removes soap residue, light limescale and other deposits in bathrooms and sanitary areas.

Suitable for polished stone.

HMK® R156 is a superior spray cleaner that removes soap residue, lime and other deposits from honed, polished and textured natural and man-made stone surfaces in showers, bathrooms and sanitary areas. R156 also cleans and refreshes the grout between tiles.

Instructions: Twist cap on front of spray head to the on position and spray R156 evenly over the whole surface. Allow a short period of time for the product to become effective but do not allow it to dry. Scrub the surface using a sponge, brush or suitable pad and rinse off with cold water. For stubborn deposits repeat the application.

Important: After use, remove cap and rinse thoroughly with clean water.

Coverage: About 50-150 sq ft per bottle.

Warning: Chemical product. Contains solvent, surfactant, auxiliary & control agents and aroma enhancers. Avoid eye and skin contact. If exposed, flush/wash with water. Keep out of reach of children. See Material Safety Data Sheet for more detailed information.

Packaging: 12 x 1/2L bottles/box.

Storage: Store in a cool place. Keep out of the reach of children and safe from frost.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 50 and above 80°F.

Limitation of liability: The liability of HMK® Moeller Stonecare and/or ACI International for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stonecare and/or ACI International shall not be liable for any consequential damages. No other warranty or representation is made or implied.
